

Openings in Oil and Gas Sector

Manager (Geophysics)

The ideal candidate should have a Bachelors/Master's degree in Geophysics possessing a minimum of 10 years' experience with 7 years as interpretation geophysicist with sound knowledge/experience of acquisition and processing of 2D/3D Seismic data. He/she will aid in implementation, analysis, monitoring of Seismic acquisition programs, data processing techniques and to perform Seismic interpretation for different concessions, new ventures evaluation for farm-in and well location optimization of exploration, appraisal & development. Hands on expertise of standard industry software preferably Petrel Interpretation & Modeling and work station based programs is required.

Max Age Limit: 45 Years

Manager (Reservoir Engineering)

The ideal candidate should have a Bachelor/Masters' degree in Petroleum Engineering possessing a minimum of 10 years' experience with 7 years in reservoir management of multiple oil and gas fields with adequate knowledge of reserves estimation, reservoir simulation methods (Black oil and Compositional) and forecasting production strategies for well/full field. Alongside they should be able to monitor well operations, propose possible solution for reservoir management issues and review of related operations like reservoir surveillance plans, simulation models, well test designs and reservoir studies. Hands on expertise of standard industry software preferably Eclipse, GAP (MBal) & Well test interpretation software (Kappa) and work station based programs is required.

Max Age Limit: 45 Years

Manager (Engineering & Process)

The ideal candidate should have a bachelor's degree in Chemical/Mechanical/Petroleum Engineering possessing a minimum of 10 years' experience in Oil & Gas production or Refinery Operation of which 7 years would be in oilfield production and gas processing operations. He/she should be able to prepare technical evaluation for contract approvals along with techno-commercially viable options on issues related to production facilities and processing plants and identifying and analyzing data to enhance product optimization and plant performance. Hands on expertise of standard industry software's and work station based programs is required.

Max Age Limit: 45 Years

Deputy Manager (Geology)

The ideal candidate should have a Bachelors' degree (preferably Masters' in Geology) with specialization in petroleum geology/structural geology/sedimentology/Sequence Stratigraphy and possesses a minimum of 7 years active experience in prospect generation, risking, Volumetrics, petrophysical analysis, basin modeling, well site geological operations, Static Modeling and optimization of exploration, appraisal and development well locations. Should be able to conduct an integrated interpretation of geology and geophysical data to analyze and monitor geology related operations of joint ventures including reviews of program and operations and identify new possible opportunities of farm-in etc.

Max Age Limit: 40 Years

Deputy Manager HR

The ideal candidate should possess Master's (Professional) degree/ MBA from a University of repute and recognized by HEC with minimum 7 years of relevant experience in managing HR function including OD, Payroll and performance management etc. Hands-on experience SAP HCM module will be preferred.

Max Age Limit: 40 Years

Deputy Manager Admin

The ideal candidate should possess Master's (Professional) degree / MBA from a University of repute and recognized by HEC with minimum 7 years of relevant experience in administrative matters, petty cash handling, staff deployment and office management etc.

Max Age Limit: 40 Years

Systems Engineer

The ideal candidate should have a Bachelor's degree in computer sciences with minimum 5 years of experience in managing and monitoring all installed systems and infrastructure (SAP and personal computer network etc.) Installation, configuration, testing and maintenance of operating systems, application software and system management tools are essential.

Max Age Limit: 40 Years

Account Executive

The ideal candidate may be part qualified accountant having 5 years of relevant experience preferably in Oil & Gas Sector. He /She must be conversant on Microsoft Suit of products. SAP Experience will be an added advantage.

Max Age Limit: 40 Years

Procurement Officer

The ideal candidate should possess a Bachelor degree with minimum 5 years of relevant experience in managing procurement activities. He/ She must possess knowledge of PPRA Procurement Rules and contracts etc.

Max Age Limit: 40 Years

Audit Senior

The ideal candidate may be part qualified accountants and should have completed an acceptable audit trainee program with minimum 5 years of experience. The incumbent should be fully conversant with MS Office Suite.

Max Age Limit: 40 Years
